in fact, according to scientists at Tulane University, there are different species for every organ in each person's body!

***Accordingly, there are now increasingly different antibiotic “cocktails” that are selected based on primary infection, co-infection, probable strain and personal chemistry. TD(o)Tj 60 0nD( )Tj 28 0 TD(a)Tj 56 0 T 56 0 TD(t)Tj 33 0 TD(r)32a***
